The Goa Sewerage System and Sanitation Services Management Act, 2008 (Goa Act 14 of 2009), which has been passed by the Legislative Assembly of Goa on 27-8-2008 and assented to by the Governor of Goa on 25-06-2009, is hereby published for general information of the public.

D. S. Raut Dessai, Under Secretary (Legislative Affairs).

Porvorim, 2nd July, 2009.

—————
**The Goa Sewerage System and Sanitation Services
Management Act, 2008**

(Goa Act 14 of 2009) [25-06-2009]

AN

ACT

*to make provision for management of sewerage system and sanitation services in the
State of Goa and for matters connected and incidental thereto.*

Be it enacted by the Legislative Assembly of Goa in the Fifty ninth Year of the Republic of India, as follows:-

1. Short title, extent and commencement.— (1) This Act may be called the Goa Sewerage System and Sanitation Services Management Act, 2008.

(2) It shall extend to the whole of the State of Goa.

(3) It shall come into force on such date as the Government may, by notification in the Official Gazette, appoint.

2. Definitions.— In this Act, unless the context otherwise requires:—

(a) “consumer” means an individual, firm, company, society, Corporation or an association, who/which has obtained piped water connection from the PWD, or has his own arrangements for potable and non-potable water for domestic, commercial or industrial purposes resulting in generation of sewage or waste water and includes all those who generate sewage or waste water even without having any such arrangement for potable or non-potable water;

(b) “dispute” means the dispute or difference arising out of any order, decision or documents issued or taken under this Act or the rules framed thereunder;

(c) “Dispute Redressal Authority” means an authority constituted under Section 7 of this Act;

(d) “Government” means the Government of Goa;

(e) “management” means administration, control, designing, planning, execution, implementation, operation and maintenance of sewerage system and sanitation services.

(f) “notification” means a notification published in the Official Gazette of the Government.

(g) “nuisance” means anything injurious or obnoxious to the community or to any individual and includes sewage or waste water or filth accumulation which in the opinion of the Executive Engineer of the PWD/Health Officer or any other authority authorized in this behalf, breed or likely to breed mosquitoes or otherwise injurious to health or property unless treated or disposed of effectively to prevent such accumulation;

(h) “Official Gazette” means the Official Gazette of the Government;

(i) “prescribed” means prescribed by rules made under this Act;

(j) “public sewer” means a pipe or underground conduit or such other device meant to carry untreated sewage and contaminated or polluted water generated from the existing building or construction site, existing in or under the adjoining street, lane or any kind of road or pathway and forming component of the sewerage system controlled by the PWD;

(k) “PWD” means Public Works Department of the Government;

(l) “sanitation services” means developing, operating and maintaining the facilities like pour flush water seal latrines, public toilets for educational institutions, community health centers, contaminated or polluted water treatment and safe disposal systems and other such facilities resulting out of programs in public health and

sanitation sector implemented by the PWD for the State or any other authority authorized in this behalf;

(m) “sewage” means night-soil and other contents of water closets, latrines, urinals, cess-pools, drains and polluted water from sinks, bathrooms, stables, cattle-sheds, discharges of filth, trade effluents, industrial effluents of specified standards from any kind of building as well as from public conveyances, markets, public places, religious places and educational institutions;

(n) “sewerage system” means the system developed and constructed for facilitating collection, conveyance, pumping, if so warranted, of sewage and includes facilities of the treatment of sewage as per the standards specified by the Goa State Pollution Control Board and safe disposal of treated effluents and non-harmful sludge on land, water bodies or non-potable use, all under control of the PWD;

(o) “State” means the State of Goa;

(p) “Technical Committee” means a committee appointed by the Government consisting of prescribed officers entrusted with the functions as prescribed for the purposes of the Act.

3. Management of sewerage system and sanitation services.— (1) On and from the date of coming into force of this Act, sewerage systems and sanitation services for the consumers in the State shall be managed and controlled by the PWD, whenever and wherever such facilities are operational and developed by the PWD in accordance with the provisions of this Act and rules framed thereunder.

(2) Except as otherwise provided by the rules made in this behalf, any consumer intending to avail the facility of sewerage system or use of sanitation services managed by the PWD, shall make an application in writing to prescribed authority for grant of authorization or permission in such for along with such documents and a fee as prescribed.

(3) On receipt of application under sub-section (2), the prescribed authority may subject to provisions of the Act, make such inquiry as it deems fit and if it is satisfied that the consumer is possessing necessary infrastructure to avail the facilities in accordance with the rules,—

(i) grant the permission unconditionally; or

(ii) grant the permission subject to such general or special conditions as it may impose; or

(iii) refuse the permission for reasons to be recorded in writing, after giving a reasonable opportunity of being heard to the applicant.

(4) Every application for grant of permission shall be disposed of by the prescribed authority within a period of 90 days from the date of receipt of the application.

(5) The prescribed authority may cancel or suspend the permission, as the case may be, for reasons to be recorded in writing if the consumer has failed to comply with any provision of the Act or rules or condition of permission granted thereof:

Provided that no permission shall be cancelled or suspended without giving a reasonable opportunity to the consumer of being heard.

4. Prohibition of nuisance.— (1) On and from the date of enforcement of this Act, no person shall cause any nuisance injurious to health or property.

(2) Every person shall avail the facility of sewerage system and sanitation services, wherever feasible, in order to prevent nuisance.

5. Exemptions.— wherever, in the opinion of the Government reasonable grounds exist in doing so, the Government may, by notification and subject to such conditions and restrictions as may be specified, exempt any category of consumers from all or any of the provisions of this Act or the rules made thereunder, either throughout the State or for any specified period or occasion, with the advice of the Technical Committee.

6. Taking over sewerage systems and sanitation facilities developed by other.— The PWD, may subject to prior approval of the Government and the Technical Committee, take-over, the sewerage and sanitation facilities developed by municipal councils, corporations, panchayats, autonomous bodies, industrial estates, Government undertakings, private developers or charitable institutions etc., constructive and overall development of sewerage system and sanitation services in the State and its management.

7. Dispute Redressal Authority.— (1) The Government may, by notification in the Official Gazette, appoint such member of Dispute Redressal Authorities as may be required for redressal of the disputes.

(2) The Dispute Redressal Authority shall comprise of three members including a Chairman, each of them shall have knowledge and experience in one or more fields of engineering, medical, health, environment, sanitation, administration, law, finance keeping in view the nature of dispute.

(3) The Dispute Redressal Authority shall pass orders after giving a reasonable opportunity of being heard to the parties to the dispute.

8. Appeal.— (1) Any person aggrieved by an order passed by the Dispute Redressal Authority or the prescribed authority may file an appeal in the prescribed manner to the Appellate Authority to be appointed by the Government, under this Act.

(2) The Appellate Authority shall pass orders after giving a reasonable opportunity of being heard to the parties to the appeal.

(3) The Order of the Appellate Authority shall be final and binding on the parties.

9. Offences and Penalties.— Any person, who has,—

(a) made a connection to sewerage system without any approval of PWD.

(b) allowed discharge of the characteristics of sewage or polluted water other than those specified by the Government by rules, by any means whatsoever, into the sewerage system managed by the PWD.

(c) caused disruption to sewerage system or sanitation service giving rise to nuisance or likely to cause nuisance.

(d) committed nuisance or abetted commission of nuisance shall be deemed to have committed an offence under this Act and be punished with a fine which may extend up

to rupees fifty thousand along with the actual cost of restoration of sewerage system or sanitation service, as the case may be, as determined by the Technical Committee.

10. Act to have effect in addition to other Acts.— The provision of this Act shall be in addition to, and not in derogation of the provisions of any other law for the time being in force.

11. Protection of action taken in good faith.— No suit, prosecution or other legal proceedings shall lie against the Government, the prescribed authority, the Dispute Redressal Authority, the Appellate Authority, or any other officer or servant in the employment of Government for anything which is in good faith done or intended to be done in pursuance of this Act or any rule or order made thereunder.

12. Power to make rules.— (1) The Government may, by notification in the Official Gazette, make rules to carry out the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters namely:—

(a) the categories of consumers who could avail different types of services under this Act;

(b) fees, tariffs, service connection charges and any other applicable charges, penalty and fines for non-payment thereof for different categories of consumers;

(c) Form of application to be made under sub-section (2) of section 3, form of affidavits, undertaking, no objection certificates or other documents, if any to be accompanied with application, form of agreement to be made with PWD for use of sewerage system or to avail sanitation services under this Act;

(d) the methods for payment of bills including billing cycles and period for payment and grace period, if any, recovery of arrears, grant of concessions for any charges or effecting the payments in particular manner;

(e) procedure to be followed by Dispute Redressal Authority for redressal of disputes;

(f) technical parameters for building sewerage system and characteristics of sewage or polluted water that can enter the sewerage system;

(g) composition of technical Committee and allocation of specifies functions to it for the purposes of this Act;

(h) manner of making an appeal against the order passed by the Dispute Redressal Authority or prescribed authority, as specified in section 8;

(i) restricting the entry of sewage, trade effluent, polluted water and other such liquid or solid waste in public sewer;

(j) any other matter which is required to be provided by rules by the Government.

(3) Every rule made by the Government under this section shall be laid as soon as may be after it is made, before the State Legislature.

Secretariat,
Porvorim-Goa.
Dated: 02-07-2009.

V. P. SHETYE,
Secretary to the Government of Goa,
Law Department (Legal Affairs).

Department of Public Works
Office of the Principal Chief Engineer

Notification

1-05/PCE-PWD-EO/10-11/102

In exercise of the powers conferred by section 12 of the Goa Sewerage System and Sanitation Services Management Act, 2008 (Goa Act 14 of 2009), the Government of Goa hereby makes the following rules, namely:—

1. Short title and commencement.— (1) These rules may be called the Goa Sewerage System and Sanitation Services Management Rules, 2010.

(2) They shall come into force on such date as the Government may, by notification in the Official Gazette, appoint.

2. Definitions.— In these rules, unless the context otherwise requires,—

(a) ‘Act’ means the Goa Sewerage System and Sanitation Services Management Act, 2008 (Goa Act 14 of 2009);

(b) ‘building sewerage’ shall mean the system of pipes, channels, conduits, chambers, gully traps and manholes conveying wastewater from the building to the nearest inspection chamber or manhole on public sewer;

(c) ‘person’ shall include consumer, occupier and owner;

(d) ‘public places’ shall include bus stands, railway stations, markets, hospitals, clinics, health institutions, educational institutions, libraries, court buildings, recreational and sports complexes, places of worship, religious institutions, dairies, slaughter houses, dhobi-ghats, hotels, theatres, auditoria, concert halls, public offices where the general public have free access, eating places;

(e) ‘section’ means section of the Act;

(f) ‘wastewater’ shall include sewage, liquid or liquefied discharges from public places, leaches and commercial or trade effluents from shops and buildings.

Words and expressions used herein but not defined shall have the same meaning as assigned to them in the Act.

3. Procedure for availing facility of sewerage system, form of application etc.—

(1) Every person intending to avail the facility of sewerage system or use of sanitation services managed by PWD, shall make an application in Form I hereto to the concerned Assistant Engineer with the following documents and fee as specified in rule 5 hereto,—

(a) Location sketch with landmarks in the vicinity of applicant’s premises.

(b) Site plan showing boundaries, layout of building sewerage showing relative levels of manholes and locations, plumbing lines supplying drinking water, also

indicating any other source of water in the premises, duly certified by the plumber holding valid registered license issued by PWD.

(c) Documents concerning ownership e.g. sale deed, order of tenancy/mundcar, etc.

(d) Occupation certificate.

(e) Document asking to avail sewerage connection issued by the Municipality or Panchayat.

(f) Affidavit and undertaking in Forms III and IV, respectively, hereto.

Nearest consumer's details regarding water supply, sewerage connection, electricity supply, telephone connection and certified copy of latest bill paid by him.

(2) After verifying the documents and making inquiry regarding feasibility of providing the sewerage connection at site, the Assistant Engineer may advise the applicant regarding modifications required in the sewerage and plumbing lines of the building. He shall ask the applicant to pay the security deposit and then release the connection after compliance of his advice and on signing the agreement in Form II hereto.

(3) Every application received under sub-rule (1) shall be disposed by the concerned Assistant Engineer as per provisions of sub-sections (3) and (4) of section 3 of the Act.

4. Categories of Consumers.— Categories of Consumers who could avail the services under the Act shall be as specified below:

(1) *Domestic Category:*

(i) Consumers having treated piped water supply connection lawfully obtained from water supply systems controlled by PWD; and

(ii) Consumers having their own arrangements, partly or fully, for potable water or otherwise, resulting into the generation of wastewater/sewage.

(2) *Commercial Category:*

(i) Consumers having treated piped water supply connection for commercial use lawfully obtained from water supply systems controlled by PWD; and

(ii) Consumer availing water supplied by PWD or other person through a tanker to make up their demand for commercial use or otherwise, resulting into generation of wastewater/sewage.

(3) *Industrial Category:*

Small industrial establishments engaged in fabrication, manufacture, or process industry having any kind of water supply arrangement, permanent or otherwise, which results into generation of wastewater/sewage.

(4) *Public Places:*

Public places generating wastewater/sewage.

5. Sewerage Charges.— All consumers generating wastewater/sewage and are availing facility of having connection to sewerage and sanitation system developed by the Government shall pay the following charges:

(i) *Domestic Category:*

Rupee 1/- (Rupee one only) per cubic meter of wastewater/sewage generated.

Quantity of wastewater/sewage generated shall be computed @ 100 lpcd or 80% of water consumed as measured through water meter and other sources as well, whichever is higher.

(ii) *Commercial Category:*

Rupees 5/- (Rupees five only) per cubic meter of wastewater/sewage generated.

(iii) *Industrial Category:*

Rupees 5/- (Rupees five only) per cubic meter of wastewater/sewage generated.

(iv) *Public Places:*

Rupees 3/- (Rupees three only) per cubic meter of wastewater/sewage generated.

(1) In cases of category (ii), (iii) and (iv) above, quantity of wastewater/sewage generated shall be computed as 80% of water consumed through the water meter, tanker water supplied from PWD and or any other source including own source of any kind of water all taken together making up the demand as declared by the consumer. The Executive Engineer shall examine and assess the wastewater/sewage generation as and when felt necessary by him and his decision as to the quantum of wastewater/sewage generation shall be final and binding on the consumer.

In case of variation in the quantum of generation of wastewater/sewage is likely to last for more than three months, the consumer shall intimate the same to the concerned Executive Engineer.

(2) The consumer who are already having connection for sewerage system and sanitary services developed by the Government shall be liable to pay the aforesaid charges on expiry of 180 days from the date of coming into force of these rules.

6. Connection Charges.— The following connection charges shall be paid by a person while availing connection to sewerage system developed by P.W.D.

(a) *Domestic Category:*

(i) Rs. 200/- per connection upto 150 mm dia.

(ii) Rs. 350/- per connection above 150 mm dia.

(iii) Rs. 100/- per flat/house if in-group joining with one connection.

(b) *Commercial Category:*

(i) Rs. 500/- per connection upto 150 mm dia.

(ii) Rs. 750/- per connection above 150 mm dia.

(iii) Rs. 250/- per consumer if in-group joining with one connection.

(c) *Industrial Category:*

- (i) Rs. 1000/- per connection upto 150 mm dia.
- (ii) Rs. 2000/- per connection above 150 mm dia.
- (iii) Rs. 500/- per industry if in-group joining with one connection.

(d) *Public Places:*

- (i) Rs. 1000/- per connection upto 150 mm dia.
- (ii) Rs. 2000/- per connection above 150 mm dia.

7. Delayed payment charges, penalties and fine.— (1) The delayed payment charges @ 2% of billed amount shall become due and payable if bill amount is not paid within the due date. Delayed payment charges shall be rounded off to next higher rupee.

(2) The water supply connection shall be liable for disconnection without notice if three consecutive bills remain unpaid.

(3) The re-connection of water supply will be effected only on payment of entire outstanding bill with 10% fine over and above the delayed payment charges as well as sewerage charges on receiving specific application for re-connection with proof of payment. The concerned Executive Engineer shall approve the re-connection.

8. Inspection Charges.— In case any party is affected by any act or omission by the consumer availing the services under the Act or these rules, he shall approach to the Executive Engineer for inspection of the sewerage system of the building of said consumer, on payment of Rs. 500/- (Rupees five hundred) for domestic category and Rs. 1000/- (Rupees one thousand) for other categories. These charges are not refundable.

9. Security Deposits.— The security deposit payable at the time of taking connection to the sewerage system shall be as under:

- (i) Domestic category: Rs. 500/-
- (ii) Commercial category: Rs. 1000/-
- (iii) Industrial category: Rs. 3000/-
- (iv) Public places: Rs. 1000/-.

10. Inspection of sewerage system, etc.— (1) The Chief Engineer may cause inspection of building, construction site or public place, and take up additional sewerage network if the public sewer is not available for effective conveyance of wastewater/sewage from such building, construction site or public place, within a distance of 30 metres from boundary of such building, construction site or are public place, so as to facilitate better wastewater/sewage management to improve sanitation and public health standards, in any part of the State.

(2) The Chief Engineer may cause inspection of building sewerage, wastewater/ sewerage systems of public places causing nuisance and pollution posing threat to sanitation and public health and order for rectification of defects and disconnect if so

warranted, sewerage connection and/or water supply connection from the sewerage system and/or water supply distribution network respectively, until such time the nuisance or pollution is removed by the consumer at his cost to the satisfaction of the Chief Engineer.

(3) The Chief Engineer, on receiving special or general order from the Director of Health Services or any other authority in pursuance of any Acts or rules framed thereunder suggesting measures necessary for improving public health administration and sanitation facilities shall to undertake the works related to such measures as soon as possible.

(4) In the event of any developmental activity is undertaken by the authorities/department or agencies of Government of Goa, Government of India, private developers, Government undertakings, which will affect existing or proposed sewerage system and sanitation services under control of P.W.D., the Chief Engineer should invariably be consulted by the respective authority department or agency before commencement of such developmental activity and the actual cost involved in restoring, repairing or reconstruction of sewerage and sanitation services affected shall be borne by concerned authority/department or agency as determined by the Chief Engineer. The funds to cover the cost restoration should be deposited with the Chief Engineer before commencement of the work.

(5) If, in the opinion of the Executive Engineer, any premises is without effective sewerage system, or its sewerage system is not functioning or malfunctioning, causing overflow or stagnation of sewage or wastewater resulting into nuisance or health hazard and also if the septic tanks are not maintained scientifically causing non-absorption of effluent from soak pits and further if public sewer is very much available within the distance of 30 meters from external boundary of the premises, he may by notice direct the owner, occupier, consumer or the in-charge person of public place, as the case may be, to construct suitable sewerage system leading the wastewater/sewage to the public sewer system effectively and avail the sewerage connection and related services within the time limit mentioned in the notice. As soon as the sewerage facility is made available within 30 meters from the premises, the Executive Engineer shall issue a notice to avail sewerage facility developed by P.W.D. and the owner/occupier shall immediately connect his sewerage system to the sewerage system developed by P.W.D. at his own cost within the period mentioned in the notice, failing which, the essential services like water supply, electricity shall be liable for disconnection at any time after expiry of the period mentioned in the notice.

(6) If it is detected by the Executive Engineer concerned, that leakage or damage to the sewerage system of any building, has resulted into contamination of ground water, piped water, or any other source of water being used by the consumer or others the Executive Engineer shall immediately order disconnection of water supply to the said building and order the person responsible to maintain the same, to repair the same, within 24 hours. In the event no steps are taken by the consumer to stop leakage or restore damage caused within 24 hours of its occurrence, the Executive Engineer shall himself take such steps and recover the cost thereof from the persons responsible thereof.

(7) If it is detected by or brought to the notice of Executive Engineer that public sewerage system is malfunctioning or choked due to any reasons whatsoever, resulting into nuisance, accumulation of filth, he shall cause to inspect the site immediately and take steps to restore the functioning of sewerage system. He shall recover the cost involved, if in his opinion the cause is attributable to the consumer, by giving suitable notice, to effect the payment within the period specified in the notice.

11. Bills and Payments.— (1) The bills for the services under the Act may be clubbed with the bills for water supply wherever possible. It will be treated as one bill for all the purposes of payments, recoveries, penalties and fines imposed under the Act.

(2) The bill may be issued normally every month in Form V hereto and shall be paid within the due date specified therein failing which it will attract delayed payment charges to be levied and subsequent actions as provided hereinabove.

(3) Bills will be issued as per the billing cycle and the consumers are advised to watch for timely receipt of bill. If the bills are not received within a period of seven days from normal date of issue of bill, the consumer should enquire about it at the local office where the bills are prepared. The Assistant Engineer, on payment of Rs. 5/- (Rupees five) shall issue duplicate bill. The fact that a consumer has not received the bill or received the bill after due date of payment will/shall absolve his liability for payment.

(4) The arrears of unpaid bills, penalties, fines, inspection charges, cost of repairs and restoration of sewerage system and any other dues from the consumer shall be recovered as arrears of land revenue, if payments are not effected by the consumer within the date specified in the notice of demand.

(5) The bills may be paid through the authorized financial institutions like banks, as specified by the Chief Engineer.

(6) The Assistant Engineer who has issued the bill may correct a bill on getting written complaint or request from the consumer, after verification of records, meters and inspection of site if necessary. The Assistant Engineer shall effect necessary corrections in the bill in respect of clerical or arithmetical errors arising out of wrong meter reading or arrears shown wrongly. The Assistant Engineer shall correct all other kinds of errors in the bill which are attributable to any other reasons including due to faulty meter as found after testing but such error should be reported on receiving first wrong bill, subject to the condition that net financial implications of such bill shall not exceed Rs. 15000/- (Rupees fifteen thousand only).

(7) The Executive Engineer shall effect corrections in the bill in the same manner as mentioned above wherein financial implications are not exceeding Rs. 2,00,000/- (Rupees two lakhs only).

12. Procedure for Dispute Redressal Authority for redressal of disputes.— (1) The Dispute Redressal Authority, on receiving the reference of disputes between the parties, shall immediately issue notice to the parties to dispute and instruct them to appear before it in person or through duly authorized representative on a specified date, time and venue.

(2) For the purpose of these rules, the Dispute Redressal Authority shall have the same powers as are vested in a civil court under Code of Civil Procedure, 1908 (5 of 1908), in respect of the following matters, namely:—

- (i) summarising and enforcing the attendance of any defendant or witness and examining the witness on oath;
- (ii) the discovery and production of any document or other material object producible as evidence;
- (iii) the reception of evidence on affidavits;
- (iv) issuing of any commission for the examination of any witness;
- (v) any other matter which may be specified by the Government.

(3) Every dispute shall be heard as expeditiously as possible and endeavour shall be made to decide the same within a period of six months from the date of receipt of notice by opposite party.

(4) The Dispute Redressal Authority shall not hear any reference made after expiry of 180 days from arising of dispute.

13. Appeal.— (1) Every appeal to be filed to the Appellate Authority shall be in the form of Memo of Appeal accompanied by the order against which the appeal is preferred and fee in the form of Court fee stamp of Rs. 100/-. (Rupees one hundred only).

(2) The Appellate Authority shall immediately give notice to both parties and instruct them to appear before it, either in person or through duly authorized representative, on a specified date, time and venue.

(3) The Appellate Authority shall give full opportunity to the parties to present their case.

(4) Every appeal shall be heard as expeditiously as possible and endeavour shall be made to decide the same within a period of six months from the date of receipt of notice by opposite party.

14. Composition and functions of Technical Committee.— (1) 'Technical Committee' shall consist of following members, namely:—

- | | |
|---|-----------------------|
| 1. Chief Engineer, P.W.D. in-charge
of Sewerage and Sanitation Services | —Chairperson |
| 2. Director of Health Services,
Government of Goa | —Member |
| 3. Chairman, Goa State Pollution
Control Board | —Member |
| 4. A member who is considered as
an expert in the subject in the
opinion of the Chairperson | —Member |
| 5. Superintending Surveyor of
Works P.W.D. will function as | —Member
Secretary. |

The Technical Committee shall advise the Government on measures to be taken for improvement of sewerage system and sanitation services in the best interests of public. It will also decide the terms and conditions for taking over the sewerage and sanitation facilities developed by other bodies as provided in terms of section 6 of the Act.

15. Technical parameters and specifications.— (1) The sewerage system of building shall join the public sewer at angle not exceeding 60 degrees with reference to alignment of public sewer and in the direction of flow. Any variation will be the exception compelled by the site conditions, which will not give rise to any problems detrimental to the public sewer.

(2) The sewerage system of building joining the public sewer shall not include the septic tank and soak pits existing, if any. The alignment of pipes and location of manholes, inspection chambers, gully traps, as well as additions, modifications and specifications thereof, required for the sewerage system of buildings proposed to be joined by sewerage connection shall be all as advised and approved by the Assistant Engineer concerned.

(3) The sewer immediately at the upstream of manhole on the public sewer shall not be at a gradient flatter than 1:90 and steeper than 1:15 as far as possible.

(4) The Executive Engineer shall decide about the location, specifications and other technical parameters of the manhole or inspection chamber, in the event more than one building sewerage systems are to be joined with one and the same manhole on public sewerage system. This manhole or inspection chamber shall not be constructed in any of the privately owned premises of the parties or consumers concerned. The Executive Engineer shall connect or extend the sewerline to any other premises to facilitate additional connections to the manhole or inspection chamber, so constructed by other consumer. No cost adjustment shall be effected for the previous consumers in such cases.

(5) The characteristics of the wastewater/sewage, which can join the sewerage system shall be as per the Schedule appended to these rules. Relaxation or tightening of these standards for entry of wastewater/sewage into the public sewer shall be as per the advice to the Government by the Technical Committee in respect of specific cases. The Government may approve or reject the recommendations of the Technical Committee for the reasons recorded in writing.

(6) Unless otherwise advised by the Technical Committee, the following categories of wastewater/sewage shall not be connected to the public sewer system, notwithstanding the fact that they meet the standards/specifications/characteristics as laid down hereinabove.

(a) Storm water, surface water, ground water, roof run-off, or sub-surface polluted water.

(b) Liquid or liquefied wastewater/sewage resulting from all categories of hazardous wastes specified in the Schedule to the Hazardous Waste (Management and Handling) Rules, 1989 and amendments thereof.

(c) Industrial effluents not treated to the standards laid down by the Goa State Pollution Control Board.

(d) Bio-medical wastes in liquid or liquefied form and wastewater/sewage resulting out of liquid ash after incineration.

(e) Leachet or any liquefied discharges from the process on solid waste.

(f) Any other wastewater/sewage causing disruption or nuisance by virtue of its entry into the public sewer system.

By order and in the name of the Governor of Goa.

J. J. S. Rego, Principal Chief Engineer and ex officio Additional Secretary (P.W.D).

Panaji, 17th September, 2010.

SCHEDULE

[See rule 15 (5)]

Characteristics of wastewater/sewage discharging into the public sewer

Sr. No.	Parameter	Standard
1	2	3
1	Suspended solids (max) mg/1.	600
2	Dissolved solids (Organic), (max).	2100
3	PH value.	5.5 to 9.0
4	Temperature (max) 0 C.	45 at the point of discharge
5	Oil and grease (max) mg/1.	20
6	Ammonical nitrogen (as N), (max) mg/1.	50
7	Biochemical oxygen demand (5 days at 20° C), (max).	350
8	Arsenic (as As), (max) mg/1.	0.2
9	Mercury (as Hg) (max) mg/1.	0.01
10	Lead (as Pb) (max) mg/1.	0.1
11	Cadmium (as Cd) (max) mg/1.	1.0
12	Hexavalent chromium (as Cr. + 6) (max) mg/1.	2.0
13	Total chromium (as Cr) (max) mg/1.	2.0
14	Copper (as Cu) (max) mg/1.	3.0
15	Zinc (as Zn) (max) mg/1.	15
